EDUCATION

University of Minnesota – Twin Cities
B.A. Computer Science & Minor in Statistics • 3.78 GPA

Minneapolis, MN
Dec 2025

RELEVANT EXPERIENCE

University of Minnesota – College of Science & Engineering

Jan 2025 – Dec 2025

Teaching Assistant

- Delivered technical lab instruction on C programming topics to 100+ students, improving overall comprehension
- Hosted 2-3 weekly office hours and lab, running code reviews and debugging C programs for 20-30 students
- Evaluated student technical needs to troubleshoot Docker containerization and IDE issues for class projects

Ostra Cybersecurity

May 2025 – Aug 2025

IT Operations Intern

- Configured secure workspace environments across Windows and Linux for 300+ enterprise endpoints
- Authored detailed system documentation and technical procedures to streamline internal knowledge sharing
- Collaborated across teams to manage incident lifecycles, identifying and remediating system vulnerabilities

JP's Coatings

June 2019 – Present

Painter/Laborer

- Manage inventory, team schedules, and project timelines to consistently ensure high-quality service and delivery
- Maintain strong rapport with project managers, providing clear communication throughout project lifecycles

Wright County Community Action

Jan 2025 – July 2026

VITA Tax Preparer

- Prepared and verified tax returns for low-income households, thoroughly ensuring completeness and accuracy
- Processed returns efficiently using IRS-certified tax preparation software while maintaining strict confidentiality

SUPPORTING PROJECTS

Personal Finance Dashboard – *Flask, React, PostgreSQL*

- Built a full-stack web app with React and Flask to support dynamic expense tracking and budgeting
- Architected a PostgreSQL ETL pipeline with automated data validation and duplicate detection

Drone Weather Simulation – *C++, Git, Docker, Agile/Scrum*

- Developed a drone simulation using design patterns to manage entity interactions and environmental logic
- Executed unit testing and root cause analysis in C++ to verify design requirements and fix system bugs

Bid Pricing Calculator – *Microsoft Excel (Pivot Tables, Formulas)*

- Formulated an estimating tool to reduce estimate errors and standardize cost calculations across roofing jobs
- Designed dependent data validation chains to prevent invalid product—roof-type combinations

Scrabble AI Engine – *Python, AI Algorithms*

- Created a Python AI agent utilizing custom decision strategies and automate word validation rules
- Optimized move evaluation using data structures to minimize latency during agentic move generation

SKILLS

Tools & Platforms: Windows OS, Linux, macOS, Docker, Git, Jira, Excel, MS Office 365

Programming & Frameworks: C, C++, Python, Java, JavaScript, React, Flask, PostgreSQL, Google Test

IT Support: Technical Support & Troubleshooting, Ticket Lifecycle Management, Knowledge Base Documentation

Methods & Competencies: Root Cause Analysis, Cross-functional Collaboration, Unit Testing, Agile Methods

Data & Analytics: SQL, R, Excel, ETL Pipelines & Data Validation, Data Visualization, Code Reviews
